The diagram illustrates the mapping of 1000 random numbers to 1000 random characters using three different methods: *mpidvc*, *mpidh*, and *mpidsq*.

mpidvc: This method uses a 10x5 grid of circles. The first row is shaded gray. The second row has the first circle shaded gray. The third row is shaded gray. The fourth row has the first circle shaded gray. The fifth row is shaded gray. The sixth row has the first circle shaded gray. The seventh row is shaded gray. The eighth row has the first circle shaded gray. The ninth row is shaded gray. The tenth row has the first circle shaded gray.

mpidh: This method uses a 10x3 grid of circles. The first row is shaded gray. The second row has the first circle shaded gray. The third row is shaded gray. The fourth row has the first circle shaded gray. The fifth row is shaded gray. The sixth row has the first circle shaded gray. The seventh row is shaded gray. The eighth row has the first circle shaded gray. The ninth row is shaded gray. The tenth row has the first circle shaded gray.

mpidsq: This method uses a 10x3 grid of circles. The first row is shaded gray. The second row has the first circle shaded gray. The third row is shaded gray. The fourth row has the first circle shaded gray. The fifth row is shaded gray. The sixth row has the first circle shaded gray. The seventh row is shaded gray. The eighth row has the first circle shaded gray. The ninth row is shaded gray. The tenth row has the first circle shaded gray.

The mapping of random numbers to random characters is shown in the center. The first row of circles is mapped to the first row of characters (A, K, U). The second row of circles is mapped to the second row of characters (B, L, V). The third row of circles is mapped to the third row of characters (C, M, W). The fourth row of circles is mapped to the fourth row of characters (D, N, X). The fifth row of circles is mapped to the fifth row of characters (E, O, Y). The sixth row of circles is mapped to the sixth row of characters (F, P, Z). The seventh row of circles is mapped to the seventh row of characters (G, Q). The eighth row of circles is mapped to the eighth row of characters (H, R). The ninth row of circles is mapped to the ninth row of characters (I, S). The tenth row of circles is mapped to the tenth row of characters (J, T).
